The Town of Mills Bob Goff Memorial Library is not affiliated in any way with the Natrona County Library. Please be sure to return library books to the proper location. Our book drop is only for Town of Mills library books.

Some of you may have noticed our Utility Drop Box is no longer at the entrance to our parking lot. We replaced it with a newer drop box and it is now located as you exit the parking lot following the one way signs. For your security, please do not put cash in the drop box. Also, to ensure your payment gets posted properly, please either write your customer number on the check or attach the bottom portion of your Utility Bill with the check.

The City of Casper notified the Town of Mills of the scheduled opening of the Materials Recovery Facility (MRF) September 1st, 2020. The MRF allows the solid waste facility to separate co-mingled recyclables, reduce contamination in recyclables, and prepare them for shipment to recyclers. Opening the facility will have costs, and The City of Casper is asking outlying communities to contribute by paying a pickup and processing fee for their recycling depots. On July 13th the topic was discussed by the Town Council. Council decided to present a survey to residents to gauge interest and facilitate input on the additional cost and items they would like to see recycled. The costs are based upon the items recycled and frequency of pickup.

**Please complete the survey by either picking one up at Town Hall, going to the website at <https://arcg.is/or1TW1>, or by using this QR code.**

Thank you for your participation.
