The Casper Natrona County Health Department has a new service they are excited to share with you. And it's free! We would like to introduce CredibleMind. It is an online one-stop shop for Personalized Mental Wellbeing. Everyone can explore, discover, and match the best possible information that addresses your needs or preferences for mental health care. You can access it in the safety of your own spaces, and it helps you access the local agencies that can assist you also. It will provide improved total health with better access to information and resources. It will offer initial solutions for behavioral health issues, including depression, anxiety, and substance abuse. Please visit: <https://healthynatrona.crediblemind.com>
